

ALUMINIUM FOIL TAPE

Description :

Soft Aluminum Foil Coated with Rubber Base pressure sensitive adhesive and self wound on release liner

Product Characteristics :

Backing	Adhesive	Thickness	Adhesion to steel	Tensile strength
Soft Aluminum Foil	Rubber Based	70 micron	1.6 N / Inch	16 Lbs / inch

Typical uses

- * General purpose holding ,patching ,sealing
- * Reflect heat & Light away from sensitive area
- * Coupling and Sealing pipe Joints in Ventilation, air condition and refrigeration systems

Product Specifications :

Color : Silver metallic

Jumbo Roll : 1200 mm Width x 1000 mtrs Length

Slit Roll : Width and Length available on request
